

OPEN ENROLLMENT IS COMING!

YOUR 2027 HEALTH PLAN CHOICE COULD MATTER!

Now is the time to understand your coverage and whether your plan is subject to Wisconsin insurance requirements.

ASK YOURSELF

- **Do you have dense breasts?** Having dense breasts significantly increases your risk of breast cancer. Check your most recent mammogram report or ask your healthcare provider.
- **Are you at an increased risk for breast cancer?**
- **Will you need supplemental breast screening, such as an MRI or ultrasound?**

KNOW BEFORE YOU ENROLL

- **Check with your employer for your specific Open Enrollment dates – many begin in October.**
- **Health Insurance Marketplace Open Enrollment begins November 1.**
- **Before selecting your 2027 coverage, ask: “Is this health plan subject to Wisconsin’s insurance mandates, including Gail’s Law?”**
- **Your insurance choices could affect your supplemental breast screening coverage.**

Gail's Law takes effect January 1, 2027. Gail's Law expands coverage for supplemental and diagnostic breast imaging for eligible individuals, but not all health plans must comply with Wisconsin insurance mandates. Before Open Enrollment, find out whether Gail's Law applies to your 2027 health plan.

NOT SURE?
